G1 **Application of Rules**

These General rules apply to all competitions run by or on behalf of the Association. All competitions will be fired under current NSRA Rules unless otherwise stated.

G2 **Eligibility**

All competitions are open to clubs currently affiliated to the Surrey County Small Bore Rifle Association. All individual competitions are open to members of those clubs, and also individual Associate Members of the Association.

G2.1 Competitions **6, 20, 21 and 24** may be entered by competitors who are not resident in the County of Surrey or members of clubs affiliated to the Association.

G2.2 Competitions for Air Rifle and 3 positional shooting, plus other disciplines, are run under the auspices of the Home Counties Co-ordinating Committee (HCCC), and are open to competitors' resident in the counties of Surrey, Kent, Essex, Hertfordshire, London and Middlesex. Further information and entry forms may be obtained from the County Secretary.

G.2.3 **Definition of Juniors**

Juniors must be under the age of 18 on the last date of entries for the relevant competitions, as shown in G.9.2

G3 **Entering Competitions**

Any eligible club or individual may enter any competition described in this handbook by using the form that is sent out to all affiliated Club Secretaries annually, or by downloading it from the Association website. The form must be completed in full, and posted or handed to the individual(s) named thereon by the published closing dates for the respective summer or winter leagues.

G4 **Entry Fees**

Must be paid in full at time of entry, and cannot be made by electronic means. Cheques to be made payable to: **"Surrey County Small-Bore Rifle Association"**.

G5 **Entry Averages** (*Differs from NSRA rules*)

The responsibility for providing an accurate average rests primarily on the individual competitor. In all cases the spirit of honesty and fairness should apply, so that competitors are placed in divisions according to their true ability. In competitions which are fired in classes, failure to provide a correctly calculated current average will result in the competitor being placed in the highest class available. A statement that a competitor is in a particular class is not sufficient.

Where an average declaration is required, this will be submitted as follows:

G5.1 Averages must be calculated to one decimal place, from the best **ten** of the last **twelve** cards fired in chronological order.

G5.2 Cards used for these calculations should be those fired in National, County, or local league team or individual postal competitions. If insufficient qualifying cards are available, internal club competition cards may be used.

G5.3.1 For all **Rifle** Competitions, averages must be submitted as a **positive score**, (NOT dropped points), and the following guidelines will apply.

G5.3.2.1 For competitions **3, 4, 5, 6, 10, 12 and 15** a short-range average must be submitted ex. 100.

G5.3.2.2 For competitions **7, 8, and 9** averages from the appropriate distance, (i.e. 50yds, 50m, or 100yds), must be submitted, ex. 200, ignoring any short-range cards fired in the meantime.

G5.3.2.3 Averages must not be mixed - i.e. twelve scores from the appropriate distance **or** twelve short-range scores must be used

G5.3.2.4 For competition **11**, a Dewar average must be submitted, (ex. 400).

G5.3.3 If there are insufficient numbers of cards fired at the appropriate distance, the average achieved in the same league for the previous season should be used. If this competition was not competed, or no other appropriate average is available, then a short-range average should be used, multiplied by the number of cards appropriate to each round of the relevant competition.

- G5.4 For **Lightweight Sport Rifle** Competitions **16, 17, 18, and 19** averages must be for PL14 targets at 20yards, ex. 300.
- G5.5.1 For **Pistol** competitions **20 and 21**, averages must be for PL15 or equivalent targets, ex.100.
- G5.5.2 For **Pistol** competitions **22 and 23**, averages must be for PL7, or PL12 targets, appropriate to the distance, ex. 300, based on an a Standard Pistol 'half-course' of fire.
- G5.5.3 For competition **24**, an average ex. 200 must be submitted, calculated as in G5.1 above.
- G6 **Re-classification**
The Chief Statistical Officer(s) or League Controller(s) reserves the right to re-classify any competitor in any competition if reasonable grounds exist to suspect that he or she has been placed in an inappropriate division, with due regard to rule G5.
- G7 **Targets**
In all competitions except competitions 13 and 14, the current NSRA or equivalent ISSF target(s), will be used appropriate to the distance. Metric cards will not be used for long range competitions. Clubs or individual competitors will be responsible for supplying the correct target for each competition.
- G8 **Adhesive labels**
Adhesive labels will be issued for all competitions, and must be affixed to the front of cards by a club official before being handed to competitors.
- G8.1 If electronic targets are used, the NSRA rules regarding the placing of stickers and witnessing of printouts must be observed.
- G9.1 **Competition Periods** (*Differs from NSRA rules*)
Winter leagues will be competed between the months of November and March, with **the last date of shooting for round one being the first Monday in November**. The summer leagues will be competed between May and September, **with round one due on first Monday in May**. The actual dates for each round will be notified to League Controllers by the Chief Stats Officer in advance. Rounds will normally be due in two-weekly intervals, but longer periods may be allowed during the Christmas holidays.
- G9.2 **Closing date for league entries.** Entries must be received by the league controller as follows: Summer leagues - first Saturday in March; Winter leagues - second Saturday in September.
- G10 **Closing Date for Shooting.**
Cards must be fired in the correct order, and **must** be in the scorers' hands not later than the Saturday following the published closing date for the round or stage of the competition, which will be a Monday. If a card arrives after that date, it will only be accepted if proof is obtained of postage within 24 hours of the last day of shooting.

- G11 **Extensions of closing dates**
 Extensions to final dates of shooting for each round will only be permitted in exceptional circumstances: e.g. illness or range closure. Scorers may grant extensions of one round, but for longer extensions, permission of the League controller must be obtained. **Extensions will not be granted for the final round in any competition.** Extensions delay the publication of full results, and will be avoided if at all possible, particularly in view of rule G12.
- G12 **Advance Shooting**
 Competitors may shoot cards as far in advance as they wish, except as stated in the rules for specific competitions, but they must be fired in round number order.
- G13 **Bogey*** (*Differs from NSRA rules*)
 If there are insufficient entries to make up complete divisions in any competition then a bogey score will be calculated, based on the rounded-up submitted average score of all of the teams or individuals in that division. **Bogey scores are included as opposed to awarding a 'bye' so that all teams/individuals in a league shoot the same number of rounds.*
- G13.1 A bogey cannot win any competition. In the event that a bogey score is higher than its opponent for any particular round, no points will be allocated to either of them.
- G14 **Completion of Competition** (*Differs from NSRA rules*)
 An individual or team who fails to complete at least two thirds of the rounds in a postal league, (e.g. 7 rounds in a 10 round competition or 6 rounds in a 9 round competition), will be disqualified from that competition. The results of all rounds completed by that individual or team will be expunged and any points awarded will be reallocated to the opponents for the respective round(s).
- G15 **Substitutions in team Competitions**
 If an individual who has been entered as a member of a team cannot, for whatever reason, shoot their cards for any particular round or rounds, then they may be substituted by another competitor provided that the following conditions are met:
- G15.1 No competitor may shoot in more than one team in any round.
- G15.2 The current average of the substitute must be submitted on the first occasion that they are used, (not necessary for subsequent occasions). This must be lower than the individual that they are replacing, (*but see rule G15.3*). This rule does not apply in Division 1 in any league, where a reserve of any average may be used.
- G15.3 If there are no substitutes available who meet the criteria in G15.2, then a higher average shooter may be used, but their score will be reduced by the difference, rounded to the nearest whole number, between the submitted average and the registered average of the shooter who is being substituted.
e.g. Substitute with an average of 96.3 replaces one with average of 93.4, and scores 98:

Substitute's average = 96.3 rounded up = 97. Original competitor = 93.4 rounded up = 94. The difference is 3, therefore the score is: 95. (score of 98 minus difference of 3).

G16 Match points

- G16.1 For competitions **3 to 10, 21 and 24**, points will be awarded on the basis of TWO for a win and ONE for a draw.
- G16.2.1 For competitions **16 to 20, 22, 23** points for each round will be allocated according to the number of teams or individuals in a division, with points equal to that number being awarded to the highest score, one less for the next highest, and so on.
e.g. If there are 6 teams or individuals, the highest score will get 6 points, the next highest 5, etc.
- G16.2.2 In the event of equal scores, each team or individual will be awarded the higher point value.
- G16.3 No points will be awarded to any team or individual failing to send in scores for any round.

G17 Tie Breaking

In accordance with current NSRA Rules, the use of graduated gauges for tie-breaking is discontinued. Ties shall be decided in accordance with the following, in order of precedence;

- G17.1 In leagues where match points are awarded in accordance with rule G16.1, if teams or individuals achieve the same number of match points for either of the two leading positions, the tie will be decided in favour of those:
- G17.1.1 with the higher aggregate gun score of all rounds of the competition;
- G17.1.2 with the higher number of match points in the matches between the two teams;
- G17.1.3 with the higher aggregate gun score in the matches between the two teams
- G17.1.4 If the tie is not broken after all of the above, the result will be a draw.
- G17.2 In leagues where match points are awarded in accordance with rule G16.2, if teams or individuals achieve the same number of match points for either of the two leading positions, the tie will be decided in favour of those:
- G17.2.1 with the higher aggregate gun score of all rounds of the competition;
- G17.2.2 with the greater number of rounds in which one achieved a higher score than the other.
- G17.2.3 If the tie is not broken after each of the above, the result will be a draw.
- G17.3 In competitions fired under ISSF scoring rules, ISSF rules on tie-breaking will apply
- G17.4 In all other competitions, except where a specific rule states otherwise, NSRA tie-breaking rules 5.5 to 5.6 will apply. (*NSRA Rulebook section 2.1*)

G18 Results

The intention of the Committee is that results for the majority of competitions will be displayed on the Association's website – www.surreysbra.org. This is to save printing, postage and administration costs, and to provide a centralised results and information service for all individuals or Clubs who have Internet access. Results will be in Adobe Acrobat (.pdf) format, to allow printing for display on Club notice boards as desired. If this is not practicable, or unless other arrangements have been made, stamped addressed envelopes must be sent to the League Controller or Scorer, otherwise no results will be sent out.

G19 **Awards**

Apart from the Association Trophies awarded annually, the Committee will decide from time to time, what other awards will be given for each competition. (Clubs and Individual Associate Members will be notified through the Website or Association Newsletter when there is to be any change of awards).

G20 **Fixture Lists**

Competition Rules

The following competitions will be run by or on behalf of the Association, but the League Controller(s) reserve the right to suspend any competition if a limited number of entries received do not justify the time or effort required to run it. Additional competitions may occasionally be introduced on a trial basis to see if there is sufficient interest to justify continued inclusion.

Competitions which are run for both summer and winter seasons will be designated by the suffix 'a' or 'b' respectively.

e.g. Competition 3a - Rifle Team League (summer); 3b - Rifle Team League (winter).

Competition 26 — Roving Trophy Rifle Team.

- 26.1 The Holders of the Roving Trophy may challenge, or be challenged by, any Club affiliated to the Association. The object of this competition is to encourage shoulder-to-shoulder competitions between Clubs within the County. These rules, therefore, are primarily for guidance and as a suggestion for the format of such events, but any reasonable competition agreed mutually between the Holders and the Challengers will be acceptable.
- 26.2 At all times the principle of fair play and mutual consent should be the over-riding considerations. Match conditions, courses of fire and other decisions should be agreed in advance by the opposing Clubs, so that there are no 'surprises' on the day of the competition.
- 26.3 After each match the 'home' team is responsible for sending a copy of the results to the County Secretary and also, if the trophy changes hands, obtaining a receipt for the trophy from the new holders. Both results and receipt should be forwarded to the County Secretary within 48 hours of the match. Matches may be fired on either clubs' range by mutual agreement.

Competition 27 — Roving Trophy Air Pistol Team

- 27.1 Conditions as for Competition 26 will apply with the exception that teams will fire air Pistol at PL15 targets at 20 yards, or Air 4 at 10 metres.

Suggested rules for Roving trophy competitions

- rt 1 Teams should consist of a minimum of four members shooting two cards each, at any standard distance
- rt 2 Competitions may be fired under 'name your own start', or 'highest score wins' conditions. If the former, each team members 'start' must be declared to the opposing team captain before shooting commences, and the 'start' will be applied to each card fired.
- rt 3 NSRA scoring rules will apply to 'name your own start' competitions, i.e. each shot fired must have a score value, all 'misses' will be discounted, and each shooter will continue firing until there are 10 scoring shots on each card.
- rt 4 In the event of a tie, each team captain should nominate one team member to fire a further card under the same conditions. If still a tie, then the holders will retain the trophy.

Queen Alexandra Cup Team and Individual Competition – County Stage
